Aquarium, Zoo and Aquaculture Applications

FYBROC HORIZONTAL PUMPS

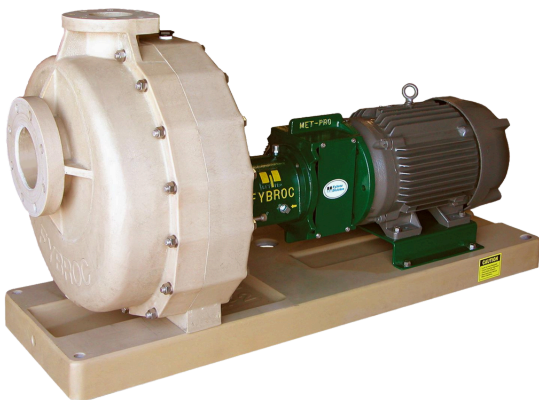

SERIES 1500 HORIZONTAL PUMPS

ANSI/ASME standard pumps featuring high strength casings with integral flanges. 19 sizes with capacities to 5000 GPM (1140 m³/hr) and heads to 400 feet (125 m).

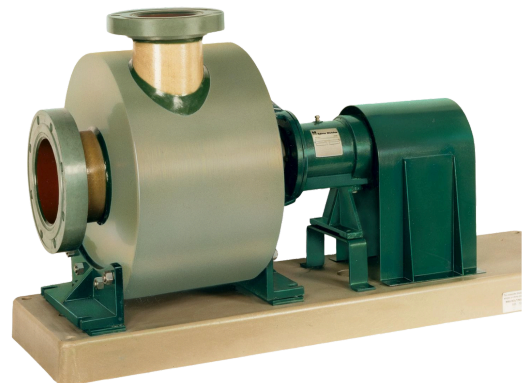

SERIES 1530 CLOSE COUPLED PUMPS

The space and weight savings of a close coupled pump are combined with the ruggedness of a standard Series 1500 pump. 16 sizes with capacities to 1500 GPM (345 m³/hr) and heads to 400 feet (125 m).

SERIES 1600 SELF-PRIMING PUMPS

These self-primers combine efficiency with excellent priming times. Substantial parts interchangeability with Series 1500 pumps. Six sizes with capacities to 1400 GPM (320 m³/hr) and heads to 300 feet (95 m).

SERIES 3000 RECESSED IMPELLER HORIZONTAL PUMP

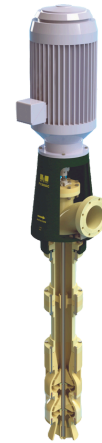

Recessed impeller design ensures durability, structural integrity, and dependable service. VR-1A available for increased abrasion resistance. Five sizes with capacities to 1200 GPM (272 m³/hr) and heads to 125 feet (38 m).

FYBROC VERTICAL PUMPS

SERIES 5500 VERTICAL SUMP PUMPS

Sump pumps are furnished in lengths (settings) from 18 inches to 30 feet with optional tailpipes. 19 sizes with capacities to 5000 GPM (1,140 m³/hr) and heads to 275 feet (85 m).

SERIES 8500 VERTICAL TURBINE PUMPS

Single and/or multi-stage vertical pump with mixed flow impeller and casing designs furnished in variable pump lengths. Four sizes with capacities to 2250 GPM (510 m³/hr) and heads to 85 feet (26 m) per stage.

SETHCO MAGNETIC DRIVE PUMPS

PM/KM MAGNETIC DRIVE END SUCTION PUMPS

Leakproof, seal-less design engineered to deliver performance, durability and ease of maintenance without leaks or emissions. 24 sizes with capacities from five to 250 GPM (one to 57 m³/hr) and heads from 10 to 94 feet (three to 29 m).

PMSP/KMSP MAGNETIC DRIVE SELF-PRIMING PUMPS

Leakproof, seal-less design combined with excellent priming times. Substantial parts interchangeability with PM/KM versions. 24 sizes with capacities from five to 230 GPM (one to 52 m³/hr) and heads from seven to 84 feet (two to 26 m).

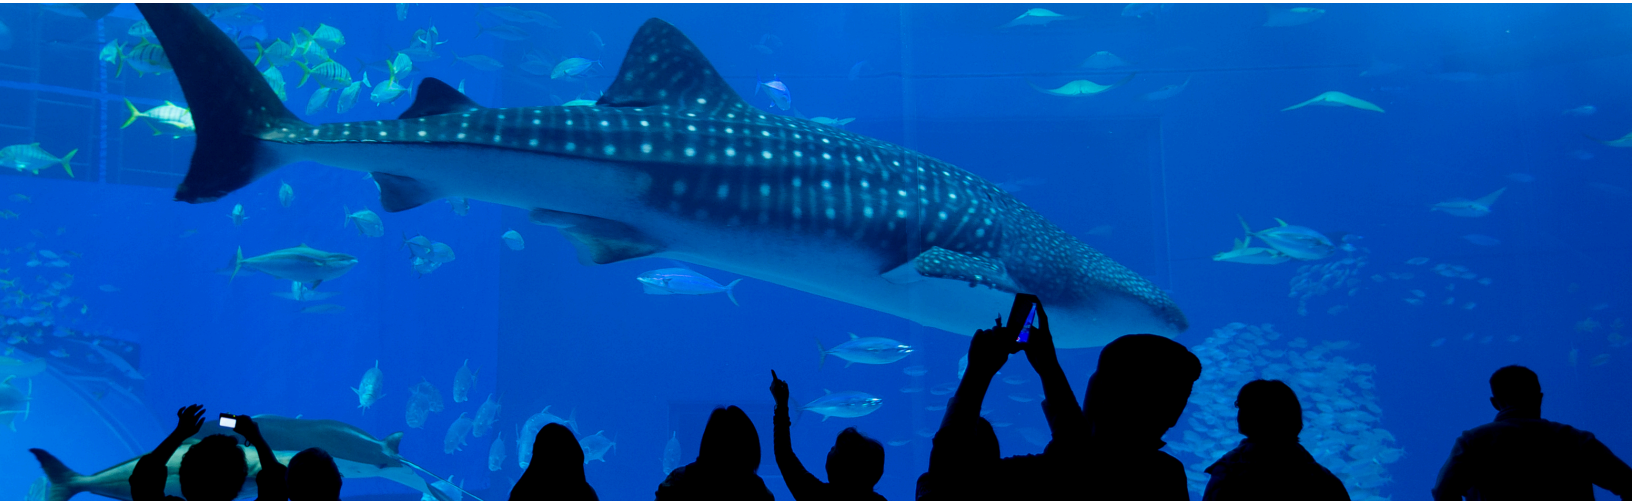

For over 60 years, Fybroc and Sethco have supplied high-quality aquarium, zoo and aquaculture pumps worldwide. With multiple corrosion resistant designs to choose from, Fybroc and Sethco have the ability to handle the world's toughest applications.

TYPICAL AQUARIUM APPLICATIONS

- Filtration
- Ozone Systems
- Foam Fractionation
- Recirculation
- Sea Water In-take
- Heat Exchange
- Recovery / Vacuum

OTHER APPLICATIONS

- Industrial Wastewater
- Bleaches
- Caustics
- Acids
- Abrasives
- Food / Beverage
- Desalination / Reverse Osmosis
