## About OE Sales:

Since 1959, and with over 200,000 installs worldwide, Flex-Kleen OE Sales offers custom design filtration technology to meet any need in regards to airflow, temperature, and pressure. Flex-Kleen specializes in ASME code markets and provides the latest technologies for product recovery, regulatory compliance, and nuisance filtration needs.

## About CECO ENVIRONMENTAL:

Flex-Kleen joined the CECO Environmental family of companies in 2013, broadening their capabilities in the air emission compliance markets. Our CECO ENVIRONMENTAL Air Pollution Team now has the capability to bring your company into compliance for any OSHA or EPA related air emission project. If it is air filtration, it is CECO Environmental.
